

Muhammad Nailul Ghufron Majid

Junior Web Developer

+62 856-4871-9610 | muhammadnailulghufronmajid@gmail.com | github.com/nailulgh | Malang, Indonesia

OBJECTIVE

Motivated Informatics student (GPA 3.83/4.00) seeking a Junior Developer position to apply hands-on skills in web development, AI integration, and structured software design. Committed to delivering clean, maintainable code and contributing effectively within a collaborative team environment.

TECHNICAL SKILLS

- HTML5, CSS3, JavaScript (ES6+)
- Supabase (Backend as a Service)
- Git & Version Control
- LLM API Integration & Prompt Engineering
- React.js & TypeScript (actively learning)
- RESTful API Integration
- Object-Oriented Programming (OOP)
- Data Structures & Algorithms

EDUCATION

UIN Maulana Malik Ibrahim Malang • S1 Teknik Informatika 2024 – Present

GPA: 3.83 / 4.00 • Relevant coursework: OOP, Data Structures, Computer Systems, Operating Systems, Numerical Methods

MA Al Anwar 2 • MIPA (Science) 2021 – 2024

- Graduated with consistent top class rank throughout enrollment.

PROJECTS

Personal Portfolio Website • github.com/nailulgh2025

- Built a 3D interactive portfolio using modern web technologies to showcase projects and skills.
- Integrated GitHub API for dynamic project data rendering and implemented responsive design.

AI-Powered Web Applications • Personal / Coursework 2025 – Present

- Developed web features integrating LLM APIs, including prompt-engineered response handling and AI-assisted UI components.
- Utilized Supabase for backend services including authentication and database management.

EXPERIENCE & ACTIVITIES

Developer & Speaker — Komunitas Fun Java • UIN Malang 2025 – Present

- Mentored participants through IT Incubation Bootcamp, guiding project development and technical problem-solving.

Creative Media Staff — Komunitas DSE • UIN Malang 2025 – Present

- Managed digital media content and supported technical seminars for a campus technology community.

KEY ATTRIBUTES

- Disciplined & detail-oriented coder
- Fast learner with growth mindset
- Strong collaborative work ethic
- Experience with AI/LLM tooling
- Comfortable with self-directed learning
- Structured, maintainable code approach
